

## GALE WEBINARS

### Take advantage of Gale webinars for NCWiseOwl resources to help fill Digital Learning Competency credit requirements!

The mission of NCWiseOwl is to ensure that all public and charter school students have access to a collection of online resources for use in educational pursuits, without regard to the economic status of their local school system. NCWiseOwl provides access to a collection of Gale (a Cengage Company) digital resources full of encyclopedias, biographies, magazines, primary sources, and multimedia for students in grades K-12. Perfect for student research, these resources are also for use in classroom settings.

**WiseOwl Wednesdays** provide an opportunity for teachers and administrators to learn more about these resources [virtually](#). Attend as many sessions as you like and you'll receive an attendance certificate that may qualify for DLC credit\*.

#### How WiseOwl/Gale Webinars Align to DLCs

The NC Digital Learning Competencies provide focus areas aligned to Professional Teaching Standards. Our webinars specifically support the focus area for **Digital Content and Instruction**:

***Teachers will Know and Use Appropriate Digital Tools and Resources for Instruction.***

Gale/NCWiseOwl resources are high quality digital tools. These resources have been used for research in library settings but they make excellent resources for classroom learning. During WiseOwl Wednesdays webinars, we explore:

- Finding content to support lessons
- Integrating digital content into lesson plans
- Using resource tools to provide simple, direct access directly to students
- Using resources to differentiate content for various reading levels, support language needs, and using accessibility tools
- How the resources align to state and national curriculums

*Join us during these sessions to gain skills to support high-quality, integrated digital teaching and learning!*
